COURSE ID: Course Title

Report 1

Student Name: Your Full Name
Student ID: XXXXXXXXX
Email: yourname@university.edu

Submission Date: March 13, 2026

Abstract

Write a concise summary (150–250 words) of your report here. Briefly describe the objectives, the methods used, the main results, and your conclusions.

Contents

1 Introduction **4**

2 Background & Related Work **4**

3 Methodology **4**
3.1 Dataset 4
3.2 Model / Approach 4
3.3 Experimental Setup 4

4 Results **4**
4.1 Quantitative Results 4
4.2 Figures 4

5 Discussion **4**

6 Conclusion **5**

A Code Snippets **5**

1 Introduction

Introduce the topic and background of the assignment. State the objectives clearly. You may reference related work [1] here.

2 Background & Related Work

Discuss any relevant theory, prior work, or datasets used.

3 Methodology

Describe your approach, model architecture, or experimental setup.

3.1 Dataset

Describe the dataset used (size, preprocessing steps, etc.).

3.2 Model / Approach

Explain your model or algorithmic approach. You can include equations:

$$\mathcal{L} = -\sum_{i=1}^{N} y_i \log(\hat{y}_i) \tag{1}$$

3.3 Experimental Setup

Detail hyperparameters, hardware, training procedure, etc.

4 Results

Present your experimental results. Use tables and figures to support your analysis.

4.1 Quantitative Results

Model	**Accuracy**	**F1**	**Loss**
Baseline	0.75	0.74	0.62
Our Model	**0.87**	**0.86**	**0.41**

Table 1: Comparison of model performance.

4.2 Figures

5 Discussion

Analyse and interpret your results. Compare against baselines. Discuss limitations and potential improvements.

6 Conclusion

Summarise your findings and their significance. Suggest future directions for research.

A Code Snippets

```python
for epoch in range(num_epochs):
    model.train()
    for batch in train_loader:
        optimizer.zero_grad()
        outputs = model(**batch)
        loss = outputs.loss
        loss.backward()
        optimizer.step()
    print(f"Epoch {epoch+1}, Loss: {loss.item():.4f}")
```

Listing 1: Example training loop.
